

## NEW CONSTRUCTION HB THERM

Customer  
HB Therm AG  
Oststrasse 25  
9006 St. Gallen

Description  
The new building is being constructed in the west of the city of St.Gallen on Piccardstrasse. A multi-storey main building as well as a production hall will be erected. The building will provide a new workplace for the manufacturing, assembly, development, sales and administration departments.

Task  
A complete automation system from the management level to the field level will be supplied for the new building.

Execution  
2021 - 2023
